

*Thank you to Congressman
Posey, his staff and others
involved in making this
IMPORTANT event
possible!*

- *My background/experience*
- *On Funding Sources*
- *On Proposal Development*

I have been a:

- *Grants Coordinator, City of Casselberry, FL*
 - *Grants Specialist, District VII HRS*
- *Paratransit Coordinator, Tri-County Transit (LYNX)*
- *2nd Grants Coordinator, University of Central Florida - DSR*
 - *Manager of the Pre-Award Office, UCF - DSR*
 - *Director, Office of Special Programs, UCF - DSR*
 - *Director, Engineering Outreach, CECS-UCF*

During this period, I also served as 2nd President of the Grant Professional Network of Orange County and more recently as the 1st President of the Central Florida STEM Education Council.

PURPOSE

Grant Opportunity Announcements

These are the most widely used form of information provided to UCF faculty.

A summary is prepared from Federal Register Reports, Annual Reports, Financial Statements, Requests for Proposals and newspaper articles. These summaries provide a brief overview of potential funding sources.

If a faculty member is interested in reviewing the complete information of that a necessary is a call to our INFO LINE. Provide us with the GOR Log # your name & location and within 24 hours you will receive the complete package.

GOR Log # 92,1495

Date: 05/29/92 # Notices: 1/1

GRANT OPPORTUNITY ANNOUNCEMENT

The information contained on the reverse of this form has been prepared as a result of data generated by DSI's Comprehensive Pre-Award System (ComPAS). All information is provided for the exclusive use of UCF personnel.

THIS INFORMATION IS ONLY AN ABSTRACT OF THE APPLICATION PACKAGE. TO OBTAIN A COMPLETE COPY OF THE SOLICITATION AND GUIDELINES PROVIDED.

If you have any questions and/or plan to submit a proposal or response to this announcement, please contact DSI as soon as possible for assistance.

Additionally, if there are any members of the UCF community who should be included in this message and their names do not appear on the list, please forward a copy to DSI.

For complete packages please contact...

U.S. DEPARTMENT OF AGRICULTURE
Cooperative State Research Services

SMALL BUSINESS INNOVATION RESEARCH PROGRAM (SBIR)

Deadline: 09/01/92

We are currently seeking proposals for research and development projects in the areas of:

1) Agriculture

2) Food and Nutrition

3) Forestry

4) Rural Development

5) Social and Economic Research

6) Statistical Research

7) Technical Assistance

8) Training and Education

9) Urban and Community Development

10) Youth Development

11) Other areas of interest to the Department of Agriculture

Phase I: To be conducted by the small business concern for a period of 6 months to 1 year. The purpose of this phase is to determine the feasibility of the proposed project and to develop a preliminary business plan. The small business concern will receive a maximum of \$50,000 for this phase.

Phase II: To be conducted by the small business concern for a period of 12 to 18 months. The purpose of this phase is to develop a prototype or a pilot-scale demonstration of the proposed project. The small business concern will receive a maximum of \$100,000 for this phase.

Phase III: To be conducted by the small business concern for a period of 18 to 36 months. The purpose of this phase is to develop a commercial-scale demonstration of the proposed project. The small business concern will receive a maximum of \$500,000 for this phase.

Eligibility requirements:

1) The small business concern must be a U.S. citizen or resident.

2) The small business concern must have a maximum of 50 employees.

3) The small business concern must have a maximum of \$10 million in annual sales.

4) The small business concern must have a maximum of \$5 million in assets.

5) The small business concern must have a maximum of \$1 million in cash and marketable securities.

6) The small business concern must have a maximum of \$1 million in debt.

7) The small business concern must have a maximum of \$1 million in equity.

8) The small business concern must have a maximum of \$1 million in total assets.

9) The small business concern must have a maximum of \$1 million in total liabilities.

10) The small business concern must have a maximum of \$1 million in total debt.

11) The small business concern must have a maximum of \$1 million in total equity.

12) The small business concern must have a maximum of \$1 million in total assets.

13) The small business concern must have a maximum of \$1 million in total liabilities.

14) The small business concern must have a maximum of \$1 million in total debt.

15) The small business concern must have a maximum of \$1 million in total equity.

16) The small business concern must have a maximum of \$1 million in total assets.

17) The small business concern must have a maximum of \$1 million in total liabilities.

18) The small business concern must have a maximum of \$1 million in total debt.

19) The small business concern must have a maximum of \$1 million in total equity.

20) The small business concern must have a maximum of \$1 million in total assets.

21) The small business concern must have a maximum of \$1 million in total liabilities.

22) The small business concern must have a maximum of \$1 million in total debt.

23) The small business concern must have a maximum of \$1 million in total equity.

24) The small business concern must have a maximum of \$1 million in total assets.

25) The small business concern must have a maximum of \$1 million in total liabilities.

26) The small business concern must have a maximum of \$1 million in total debt.

27) The small business concern must have a maximum of \$1 million in total equity.

28) The small business concern must have a maximum of \$1 million in total assets.

29) The small business concern must have a maximum of \$1 million in total liabilities.

30) The small business concern must have a maximum of \$1 million in total debt.

31) The small business concern must have a maximum of \$1 million in total equity.

32) The small business concern must have a maximum of \$1 million in total assets.

33) The small business concern must have a maximum of \$1 million in total liabilities.

34) The small business concern must have a maximum of \$1 million in total debt.

35) The small business concern must have a maximum of \$1 million in total equity.

36) The small business concern must have a maximum of \$1 million in total assets.

37) The small business concern must have a maximum of \$1 million in total liabilities.

38) The small business concern must have a maximum of \$1 million in total debt.

39) The small business concern must have a maximum of \$1 million in total equity.

40) The small business concern must have a maximum of \$1 million in total assets.

41) The small business concern must have a maximum of \$1 million in total liabilities.

42) The small business concern must have a maximum of \$1 million in total debt.

43) The small business concern must have a maximum of \$1 million in total equity.

44) The small business concern must have a maximum of \$1 million in total assets.

45) The small business concern must have a maximum of \$1 million in total liabilities.

46) The small business concern must have a maximum of \$1 million in total debt.

47) The small business concern must have a maximum of \$1 million in total equity.

48) The small business concern must have a maximum of \$1 million in total assets.

49) The small business concern must have a maximum of \$1 million in total liabilities.

50) The small business concern must have a maximum of \$1 million in total debt.

51) The small business concern must have a maximum of \$1 million in total equity.

52) The small business concern must have a maximum of \$1 million in total assets.

53) The small business concern must have a maximum of \$1 million in total liabilities.

54) The small business concern must have a maximum of \$1 million in total debt.

55) The small business concern must have a maximum of \$1 million in total equity.

56) The small business concern must have a maximum of \$1 million in total assets.

57) The small business concern must have a maximum of \$1 million in total liabilities.

58) The small business concern must have a maximum of \$1 million in total debt.

59) The small business concern must have a maximum of \$1 million in total equity.

60) The small business concern must have a maximum of \$1 million in total assets.

61) The small business concern must have a maximum of \$1 million in total liabilities.

62) The small business concern must have a maximum of \$1 million in total debt.

63) The small business concern must have a maximum of \$1 million in total equity.

64) The small business concern must have a maximum of \$1 million in total assets.

65) The small business concern must have a maximum of \$1 million in total liabilities.

66) The small business concern must have a maximum of \$1 million in total debt.

67) The small business concern must have a maximum of \$1 million in total equity.

68) The small business concern must have a maximum of \$1 million in total assets.

69) The small business concern must have a maximum of \$1 million in total liabilities.

70) The small business concern must have a maximum of \$1 million in total debt.

71) The small business concern must have a maximum of \$1 million in total equity.

72) The small business concern must have a maximum of \$1 million in total assets.

73) The small business concern must have a maximum of \$1 million in total liabilities.

74) The small business concern must have a maximum of \$1 million in total debt.

75) The small business concern must have a maximum of \$1 million in total equity.

76) The small business concern must have a maximum of \$1 million in total assets.

77) The small business concern must have a maximum of \$1 million in total liabilities.

78) The small business concern must have a maximum of \$1 million in total debt.

79) The small business concern must have a maximum of \$1 million in total equity.

80) The small business concern must have a maximum of \$1 million in total assets.

81) The small business concern must have a maximum of \$1 million in total liabilities.

82) The small business concern must have a maximum of \$1 million in total debt.

83) The small business concern must have a maximum of \$1 million in total equity.

84) The small business concern must have a maximum of \$1 million in total assets.

85) The small business concern must have a maximum of \$1 million in total liabilities.

86) The small business concern must have a maximum of \$1 million in total debt.

87) The small business concern must have a maximum of \$1 million in total equity.

88) The small business concern must have a maximum of \$1 million in total assets.

89) The small business concern must have a maximum of \$1 million in total liabilities.

90) The small business concern must have a maximum of \$1 million in total debt.

91) The small business concern must have a maximum of \$1 million in total equity.

92) The small business concern must have a maximum of \$1 million in total assets.

93) The small business concern must have a maximum of \$1 million in total liabilities.

94) The small business concern must have a maximum of \$1 million in total debt.

95) The small business concern must have a maximum of \$1 million in total equity.

96) The small business concern must have a maximum of \$1 million in total assets.

97) The small business concern must have a maximum of \$1 million in total liabilities.

98) The small business concern must have a maximum of \$1 million in total debt.

99) The small business concern must have a maximum of \$1 million in total equity.

100) The small business concern must have a maximum of \$1 million in total assets.

URL: <https://www.innocentive.com/ar/challenge/993724>

Summary

Advances in co-cultures, tissue engineering, microfluidics, and artificial organ systems have allowed researchers to create predictive models for assessing drug efficacy and safety in vitro. As these models become more sophisticated, researchers are equipped to generate microenvironments that closely approximate human physiology. Drug pharmacokinetics determines the duration and level of exposure within the body and this aspect is not modeled accurately in vitro. Therefore AstraZeneca seeks a system compatible with multiwell plates that automates the time-dependent changes in drug concentration that define dynamic pharmacokinetics.

2015

I have been a:

- *Grants Coordinator, City of Casselberry, FL*
 - *Grants Specialist, District VII HRS*
- *Paratransit Coordinator, Tri-County Transit (LYNX)*
- *2nd Grants Coordinator, University of Central Florida - DSR*
 - *Manager of the Pre-Award Office, UCF - DSR*
 - *Director, Office of Special Programs, UCF - DSR*
 - *Director, Engineering Outreach, CECS-UCF*

During this period, I also served as 2nd President of the Grant Professional Network of Orange County and more recently as the 1st President of the Central Florida STEM Education Council.

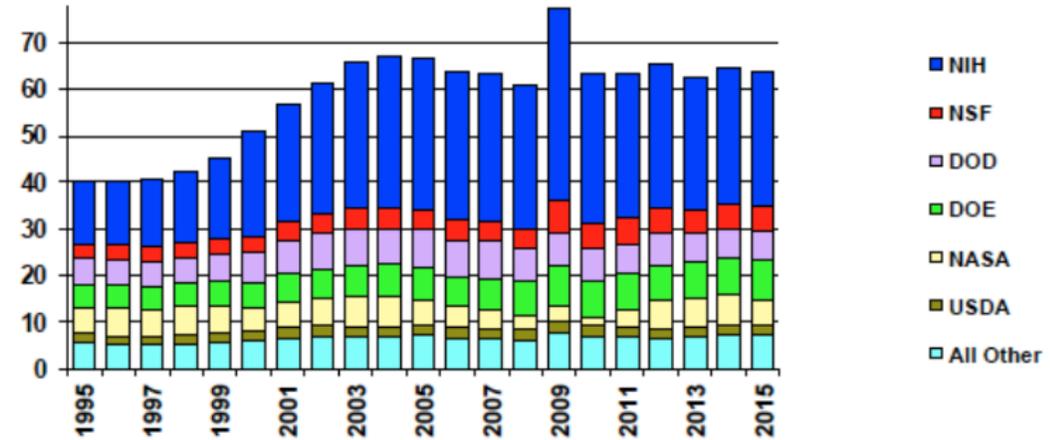

Federal Grants Outlays
to State and Local
Governments - 2011 -
*Congressional Budget
Office*

Federal "Basic and Applied Research" Funding -
As Reported by the
Congressional Research Service

Federal Research by Agency, FY 1995-2015

in billions of constant FY 2014 dollars

FY 2009 figures include Recovery Act appropriations.
Research includes basic research and applied research.
FY 2015 figures exclude Opportunity, Growth, and Security Initiative proposals.

2015 does not show changes Congress may make in the appropriations bills

Some Public/Private Funding Sources

State/Regional/Local Funding - Florida Recreation Development Assistance Program; IRL National Estuary Program, Florida Department of Law Enforcement; SJ Water Management District, East Central Florida Regional Planning Council, Florida Division of Cultural Affairs (as seen below) and Volusia County Government re ComPAS.

Fiscal Year ▼	Division	Grant Type	Grant Subtype	Project Name	Fiscal Agent	Grantee	County	Award Amount	Requested Amount
2014	Cultural Affairs	Cultural Facilities	Renovation	The Historic Cocoa Village Playhouse Renovation		City of Cocoa	Brevard	\$500,000.00	\$500,000.00

Corporate Giving -

Boeing Contributes to education (K12), environment, health and human services and arts and culture in support of the Florida community.

FLORIDA – LOCAL GRANTMAKING GUIDELINES

Boeing's journey as a global industry leader and corporate citizen parallels its nearly 100-year history of building better communities worldwide.

As we contribute toward sustainable growth and systemic impact for our communities and their people, we must place greater emphasis on preparing individuals for success through lifelong learning – a process that starts at birth and continues throughout peoples' lives. With a focus on integrated, active and ongoing learning we can best build the capacity of individuals and communities to succeed in a constantly evolving world. To this end, our contributions and efforts in Florida are focused on these key strategies: education (K-12), environment, health and human services, and arts and culture – to make systemic, lasting contributions to our community.

How do I apply for a grant?

1. **Read this complete document** to understand Boeing's local community investment guidelines for this region.
2. **If you believe your project aligns** with our local guidelines for Florida, go online to submit a Letter of Inquiry (LOI) <http://www.cybergrants.com/boeing/loi>.
3. **If we are interested in pursuing your proposed project**, Boeing will contact you to discuss the possibility of submitting a full online grant application.

Deadlines are:

LOI Period	Application Deadline (if invited)	Awards Announced
February 23 – May 31	June 30	No later than October 31

If a deadline falls on a weekend or holiday, the application is due on the next business day.

<http://www.boeing.com/principles/community-engagement.page>

Crowdsourcing is a "community engagement tool" that can "Increase Awareness, Cultivate New Volunteers, and Gather Information for Your Charity". It also can be used to pool collective knowledge, manage crowd voting and support crowd funding. - *TechSoup*

InnoCentive Challenge seeks "solutions from the world's smartest people, who compete to provide ideas and solutions to important business, social, policy, scientific, and technical challenges".

Some Considerations regarding Proposal Development

- Create a yearly plan of agencies/organizations you are interested in submitting a proposal to for support
- When determining an appropriate funder - Research the funder to determine if there is a good fit (READ THE GUIDELINES, view previously funded information, make sure you are eligible and be certain you can meet the deadline.)
- CALL/MEET THE FUNDER AND DISCUSS YOUR PROPOSAL *(Never propose in a vacuum)*

Some Considerations regarding Proposal Development

- **Establish Credibility** - Document your agency/organization (mission, goals, demographics, budget and grants awarded/managed)
- **Identify the Key Components** (problem / needs statement)
 - Nature of the problem, what is currently being done, and purpose of the proposal (possible needs assessment)
 - Goals, Benefits and Detailed Solution - Use quantitative and measurable data and well-stated goals and detailed objective(s)
 - Include a sensible timeline, appropriate personnel, realistic budget and plans for an evaluation

We live in an era of collaboration

- **Locating potential partners** (faculty at universities and community colleges, teachers at school districts, key personnel at state/local governments and non-profits that provide similar or related services)
- **Taking the lead** (do you have sufficient experience and success in obtaining support) or should you seek a lead organization (that has the necessary experience/success) and explore how you might partner with them as a sub-contractor
- **Understand the costs involved in collaborating** (time, budget considerations, building relationships and ONGOING COMMUNICATION)

Some Considerations regarding Proposal Development

Some Considerations regarding Proposal Development

- Double check all required forms, signatures and attachments
- Determine electronic or hardcopy submission requirements
- **If you get rejected**, request the reviewers' comments
- If you are funded, **NOW THE REAL WORK BEGINS!**

Any Questions ?
